BSCS Student at FAST NUCES, Chiniot-Faisalabad Campus
Chiniot District, Punjab, Pakistan

Summary

Founder of Mealopia and a Computer Science student at FAST-NUCES, passionate about building technology that creates real impact. I founded Mealopia to bridge the gap in food delivery services in my hometown, Chiniot, and empower local businesses through innovation. Committed to continuous learning, academic excellence, and turning ideas into scalable solutions. Deeply grateful to Allah Almighty for every opportunity, challenge, and blessing, and sincerely thankful to my brother, the Co-founder of Mealopia, for his guidance and unwavering support throughout this journey.
